FOREWORD

SPECIAL attention is directed to the necessity of consulting the latest issue of the monthly Supplement for up-to-date records of surveys held on ships classed with the Society.

The information published in this Register of Ships has been obtained from sources which are believed to be reliable, but the Society is unable to guarantee the accuracy of all the details included.

Additional particulars of a more technical nature, where available, will be found in Sections 1, 2 and 3 of the Appendix (Volume II).

KEY TO THE REGISTER OF SHIPS

Column 1

MT (with date)	Expiry date of a Passenger Certificate issued by the British Ministry of Transport.

Column 2

PFD	,, Position Fixing Device
RDR	,, Radar
SBS	,, Submarine Signalling Apparatus

Column 3

Tonnages	The gross and net tonnages printed in roman type are, with a few exceptions, the official tonnages measured according to the law of the country in which the ship is registered. For some ships not sailing under the British flag, the tonnages have been measured in accordance with British rules and are accepted under British law. In such cases the gross and net tonnages are printed in *italic type*.
Deadweight	The figure recorded is the total deadweight tonnage of cargo and bunkers at the summer loadline, as stated by the owners.

Column 4

Owners	The name recorded is that of the Managing Owner, or of the firm in which the Managing Owner is a partner.
Managers	The managers of the ship are recorded if desired.

✠	Denotes that the ship was built under the supervision of the surveyors in accordance with the Rules and Regulations of Lloyd's Register of Shipping.
*	Denotes that the ship was built under the supervision of the surveyors in accordance with the Rules of the British Corporation.
100A1	Character of sea-going iron or steel ships classed with Lloyd's Register.
90A1	Character previously assigned to iron or steel ships of a lower standard, but now discontinued.
A1	Character assigned to ships intended to trade within specially sheltered waters such as harbours, rivers or estuaries. Prior to 1948 this character was also assigned for limited sea-going service.
A1	Character of wood or composite ships. The number prefixed to the character indicates the term of years for which the ship is at present classed. Cont. or Rest. indicates continuation or restoration of class after the original term of years has expired. A number of years suffixed to the character, thus–8 yrs, indicates the period of extension granted in certain cases.
1	The figure **1** in the character signifies that the ship has equipment of anchors, chain cables and hawsers in accordance with, or of a standard equivalent to, the requirements set forth in the Rules for sea-going ships classed for unrestricted service or has equipment which is acceptable to the Committee for a special or restricted service. If, by reason of the ship's service, normal equipment is considered to be unnecessary, the figure **1** may be omitted from the character of classification.
–	This sign in the position usually occupied by the figure **1** indicates that the equipment of the ship is deficient in quantity or quality.
Examined LR	Indicates that the ship has been surveyed for maintenance by the Society's surveyors.
with freeboard with fbd	Signifies that the freeboard assigned is a condition of the ship's class. The scantlings of ships built since 1949 are based upon a specified draught and this notation is no longer assigned.
LMC ✠LMC *LMC	Lloyd's Machinery Certificate, denoting that the machinery has been classed with Lloyd's Register. The ✠ or * signifies that the machinery was built under the supervision of the surveyors to the Rules of Lloyd's Register or of the British Corporation respectively.
Lloyd's RMC ✠Lloyd's RMC	Denotes that the refrigerated cargo installation of a ship has been classed with Lloyd's Register. The ✠ signifies that the installation was constructed under the supervision of the surveyors.

An appropriate notation is inserted when a ship's class has been expunged by the Committee or withdrawn at the owners' request. If no classification symbol or notation appears except the ✠ or * it indicates that the ship was built under the supervision of the surveyors of Lloyd's Register or the British Corporation, and that the class has been withdrawn on expiration, or in default of survey, or on account of non-payment of fees due.

Column 6
